

EW80 *klarpilot*

Demisting and Cleaning

The EW80 *klarpilot* is the perfect accessory for diving goggles, helmets and prescription glasses with its 3-fold effect:

- effective and particularly long-lasting demister
- intensive anti-static
- hygienic protection against contamination

Ecologically Compatible

The product is biodegradable, environmentally friendly and without gas, alcohol (no venting) or silicone (no color reflections).

User Friendly

A drop of EW80 *klarpilot* gets applied with a soft pulp on the field of view and polished immediately.

Excellent Value for the money

A 50 ml bottle is more than enough for numerous applications.
